Dear Angelo:

We are very pleased with the work that you have provided for us at Altrom Group. Your trades people were very easy to work with and flexible to our needs. It took planning to be able to accomplish the necessary work while employees were in the office. The office looks so clean and fresh from the paint job that was provided, but you were also able to have the new light fixtures installed and accomplish the repairs with very little disruption.

The office looks much more professional.

Thank you for co-ordinating this project and completing it in such a timely fashion.

Sincerely,

A handwritten signature in black ink that reads "Lyla Stewart".
